

# Library Security Systems EM (Electro Magnetic)

## Gates

- Superior security detection
- Transparent modern design esthetic
- Integrated audible and visual alarms
- Integrated Ethernet for Remote Monitoring & Tuning
- Ability to connect to remote devices such as camera systems & barriers
- Long range detection
- Multiple corridor configuration
- Corridor width of up to 120 cm

## People Counting

- Most advanced infrared people counting technology
- Reports on patron peak hours and staff efficiency
- Bi-directional people counter will accrue numbers of visitors
- Fixed to lattices for easy viewing
- People counter displays:
  - Patrons in
  - Patrons out
  - Patrons remaining

## Alarming

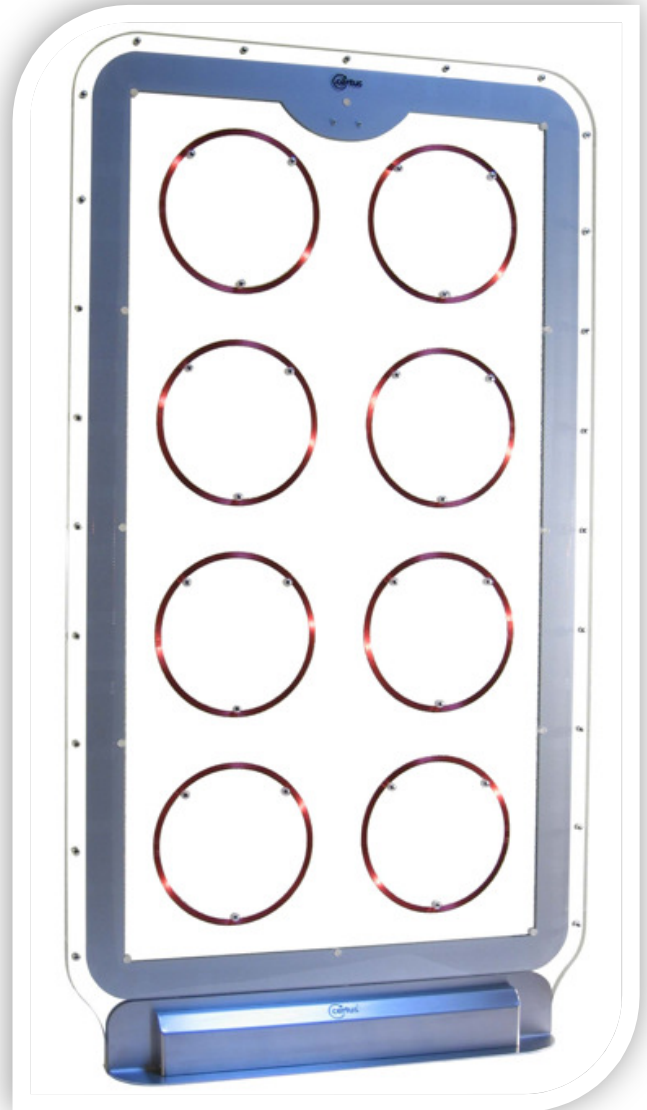

- Give staff the confidence that alarms are 'genuine'
- Alarms only when items are leaving the library
- Increases overall reliability of the security system

## Reduced false alarms

- Filtering out objects to reduce the number of false alarms such as ring binders and electrical devices
- Provides greater overall confidence in the system

## Specifications

<b>Dimensions (wxdxh):</b>	20mm x 815mm x 1650mm
<b>Weight (per gate):</b>	30kg
<b>Material:</b>	Fully Transparent mounted on stainless steel base
<b>Power:</b>	220/240 VAC, 50/60 Hz
<b>Power consumption:</b>	3.0A / 1.5A
<b>Data:</b>	Ethernet (TCP/IP)
<b>Temperature range:</b>	Operating: 10 °C to +40 °C/Storage: -40 °C to +55 °C
<b>Configurations:</b>	Can support up to 8 panels to (total coverage of 9.0m)
<b>Additional features:</b>	Integrated bi-directional people counter. Ability to trigger external devices such as CCTV, voice alarms and entry gates.

# Library Security Systems EM (Electro Magnetic)

## CSX Combo Unit

Saves time by desensitizing/resensitizing multiple items at a time. The automatic function helps to ensure reliable processing by detecting the task needed. It safely desensitizes/resensitizes EM Security Strips on print materials and CDs. It's standby energy saving mode ensures the unit switches on only when presented with media.

## Security Strips

Ultra-thin double-sided strips are designed to be applied between pages of books and periodicals. The extra-long liner makes it easier to insert the strip deeply into the gutter, making it virtually undetectable.

DCD-2 strips are designed for CDs and DVDs.

The easy, one-step application process integrates two strips into a clear film overlay that prevents removal and protects the surface of the disc. Strips will not affect performance.
